

# SQL Workshop

University of California, Berkeley  
School of Information  
*IS 257: Database Management*

# Lecture Outline

- How to Connect to MySQL
  - Via phpMyAdmin
  - Via Terminal and MySQL program
- Installing the Diveshop Database
- Running queries
  - Via phpMyAdmin
  - Via MySQL on Terminal

# Connecting to phpMyAdmin

- We will step through Kevin Heard's phpMyAdmin tutorial (there is a link from the Assignment 1 page)
- Follow along on your laptop...
- *Note: phpMyAdmin has changed versions since the tutorial was originally written, but most things should work about the same*
